Premium Discontinuance

The Policy will acquire a Surrender Value after paying premium for the first complete policy year & will become payable after completion of first policy year

The rate of interest shall be reset on an annual basis at the beginning of every financial year (April) and would be determined based on the average of 10-year G-Sec YTM plus 75 basis points rounded down to 25 basis points. The average of the benchmark would be taken from the previous financial year for the period 1st July to 31st Dec. The source of information for 10 year GSec rate would be “CCIL”. The current applicable rate of interest on policy reinstatement is 8% p.a. compounding monthly which would be applicable for the FY 2024-25. Revival of the policy is subject to Board approved underwriting policy, i.e. the Life Insured may have to undergo medical tests, financial underwriting etc. Upon revival of the Policy, the policyholder will become entitled to full Annual Guaranteed Additions for the policy year(s) while the policy was in paid up/lapse stage. The average of the benchmark would be taken from the previous financial year for the period 1st July to 31st Dec. The source of information for 10 year GSec rate would be “CCIL”.
