## Choice of Investment Strategies

At inception, Policyholder can choose one of the below investment strategies.

- Defined Portfolio Strategy
- Life Stage Portfolio Strategy

Within the Defined Portfolio Strategy, Policyholder can choose to invest with or without Systematic Transfer Plan Option. Once opted in, the investment strategy will continue throughout the policy term. You cannot switch from one investment strategy to another during the policy term.

## Defined Portfolio Strategy

Under this option, you can opt to invest in any of the funds as available (except Discontinued Policy Fund or Liquid Fund) in proportion of your choice. Within the Defined Portfolio strategy, you also have an option to select Systematic Transfer Plan (STP) option for which Liquid Fund will be made available to you. You can switch monies amongst these funds using the switch option.

You have an option to choose from six funds to invest your money in. You can look at the investment objectives of each of our funds and match those with your investment goals and then decide the proportion of money you would like to invest in each of them. If you are opting for more than one fund, the minimum investment in any fund should be at least 1% of the Annual Premium. The funds and fund objectives are as follows:

Fund	Investment objective	Asset Allocation	Risk Profile
<b>Debt fund (SFIN: ULIF00127/08/08 FIXEDIFUND140)</b>	To generate steady return at lower risk by investing in a range of debt securities.	Government Securities: 50% to 100% Corporate bonds: 0% to 50% Money Market/cash: 0% to 40%	Low

<b>Balanced Equilibrium Fund</b> (SFIN: ULIF016010223 BALEQIBFND140)	Generate stable returns from a prudent combination of equity and fixed income investment with the possibility of increasing the fixed income contribution to 35%	Equity and Equity Related Instruments: 65% to 75% Govt. <b>Growth Momentum Fund</b> (SFIN: ULIF015010223 GROWMOMFND140)	Generate superior long-term returns from a diversified portfolio of equity and debt securities. The fixed income allocation can be increased to 25% depending upon market conditions to afford stability to the fund.	Equity and Equity Related Instruments: 75% to 85% Govt. Security / Corporate bonds / Money Market Instruments: 15% to 25%	High
<b>Large Cap Advantage Fund</b> (SFIN: ULIF013010223 LARCPADFND140)	To generate long-term capital appreciation from investment in large cap stocks which are constituents of the Nifty 100, subject to the regulatory limits on investee companies, their groups and industry sectors with the objective of beating the respective benchmark returns. The fund will have the flexibility of moving into fixed income instruments to the extent of 15% during more volatile periods.	Equity and Equity Related Instruments: 85% to 100% Govt. Security / Corporate bonds / Money Market Instruments: 0% to 15%	High
<b>Flexi Cap Opportunities Fund</b> (SFIN: ULIF014010223 FLEXIOPFND140)	Dynamic capital appreciation through diversified investments in companies across the market capitalisation spectrum. The fund will have the flexibility of moving into fixed income instruments to the extent of 15% during more volatile periods.	Equity and Equity Related Instruments: 85% to 100% Govt. Security / Corporate bonds / Money Market Instruments: 0% to 15%	High
<b>Pramerica Nifty Mid Cap 50 Correlation Fund</b> (SFIN: ULIF017260423 NIFMIDICOR140)	To invest in equity and equity oriented instruments in order to generate returns that closely corresponds to the returns of the Nifty Mid Cap 50 Index subject to tracking errors. The fund would invest in securities that form part of the NIFTY Mid Cap 50 Index to achieve high correlation with the index within the regulatory framework permitted.	Equity & equity oriented instruments: 90-100% Money Market Instruments: 0-10%	High

Liquid Fund will be available to the Policyholder only through STP. Investment objective of Liquid Fund is as under:

<b>Fund</b>	<b>Investment Objective</b>	<b>Asset Allocation</b>	<b>Risk Profile</b>
<b>Liquid Fund (only in case of STP)</b> (SFIN: ULIF00920/01/11 LIQUIDFUND140)	To generate steady return at lower risk by investing in a range of short-term debt/liquid money market securities	T-Bill/Money Market/Cash: 100%	Low

In addition to above fund an additional fund will be maintained for discontinued policies with the following asset allocation and SFIN.

Fund Name	Investment Objective	Asset Allocation	Risk Profile
<b>Discontinued Policy Fund</b> (SFIN: ULIF01024/02/11 DISCONFUND140)	To generate steady return at lower risk when the policyholder surrenders the policy or discontinues premium payment during the lock in period. The currently prevailing minimum guaranteed rate of interest applicable to discontinued fund is 4 percent per annum.	Government Securities: 60% to 100% Money Market/cash: 0% to 40%	Low

The minimum guaranteed rate of interest applicable to Discontinued Policy Fund will be specified by the IRDAI from time to time. The current minimum guaranteed rate applicable to Discontinued Policy Fund is 4% per annum.

### Systematic Transfer Plan (STP)

With STP, you can invest a specific amount in a regular fashion at monthly intervals. This gives you the advantage of rupee cost averaging. You buy more units when markets are down and fewer units when markets are up, thereby reducing the average cost of purchase of units in the funds selected by you.

You have an option to choose STP for 12 months only. The option would be available to policies where premium is paid annually.

### How STP Works

While applying for the policy, you choose the amount to be invested in a regular fashion in one or more of the six funds mentioned above, and decide the proportion of money you would like to invest in each fund. If you are opting for more than one fund, the minimum investment in any fund should be at least 1% of the Annualized premium paid.

In case of STP, the Annualized premium (net of allocation charges) will be first allocated to Liquid fund every policy year till completion of premium payment term, and then at the beginning of each policy month (monthly policy anniversary), a portion will be systematically switched to the funds chosen by the policyholder at inception. Every month 1/N of units will be transferred from Liquid fund to other funds as per the fund allocation proportion chosen by the policyholder; where N= number of months remaining under the STP scheme.

For e.g.: A policyholder chooses the STP option with premium allocation of 20% in Debt Fund and 80%

in Growth Momentum Fund. Then for the first month 1/12 \* 20% of units in Liquid Fund will be switched to Debt Fund and 1/12 \* 80% of units in Liquid Fund will be switched to Growth Momentum Fund. This transfer will happen after the deduction of all the charges for that monthly policy anniversary. For second month 1/11 \* 20% of units in Liquid fund will be switched to Debt Fund and 1/11 \* 80% of units in Liquid Fund will be switched to Growth Momentum Fund and so on each policy year.

### Life Stage Portfolio Strategy

Considering the ever changing financial needs as per the different life milestones, we offer a life stage based investment strategy wherein the investments are distributed between Large Cap Advantage Fund and Debt Fund with their proportions varying as per the different life stages. At inception the funds will be distributed between two funds, Large Cap Advantage Fund & Debt Fund. As and when the next milestone is achieved, the funds will be re-distributed according to the attained age (age bands) as given in following table:

Age last birthday last policy anniversary	Debt Fund	Large Cap Advantage Fund
Up to 25	15%	85%
26 – 30	20%	80%
31 – 35	25%	75%
36 – 40	30%	70%
41 – 45	35%	65%
46 – 50	40%	60%
51 – 55	45%	55%
56 & Above	50%	50%

On a quarterly basis, the strategy shall be reviewed and rebalanced, if necessary, to achieve above proportions. The rebalancing will be done on the first day of each quarter of the financial year except for the last 12 months of the policy. If the first day is a non-valuation date then the next working day's NAV will be applicable.

In the last 12 months, the remaining investments from Large Cap Advantage Fund will be systematically transferred to the liquid fund in 12 installments.

- The partial withdrawals shall not be allowed which would result in termination of a contract.

- The partial withdrawals with respect to the fund values from the regular Premiums shall only be counted for the purpose of adjusting the sum assured to be payable on death. Partial withdrawals made from the Top-Up premiums shall not be deducted for this purpose.

• **Systematic Withdrawal Option (SWO)**

Looking at the need of your regular cash flow requirements, you may opt for Systematic Withdrawal Option (SWO), which is an automated partial withdrawal facility that can be opted anytime from 10<sup>th</sup> policy year or thereafter. <sup>^</sup> Payout frequency is 12 for yearly, 6 for half-yearly, 3 for quarterly and 1 for monthly

Systematic Withdrawal Option will be subject to the below conditions:

- i. SWO will follow all the conditions of the partial withdrawals

The policyholder may give a fresh request to start the SWO again
- vi. Policyholder can choose to opt out of SWO anytime by giving a written notice

• **Settlement option**

The exposure of the fund as per the fund mandates shall be reinstated within reasonable timelines once the force majeure situation ends
6. Few examples of circumstances as mentioned [in point 3 & 4 above] are:
  - a) When one or more stock exchanges which provide a basis for valuation of the assets of the fund are closed otherwise than for ordinary holidays.

  - c) In the event of natural calamities, strikes, war, civil unrest, riots and bandhs.
