In addition to above fund an additional fund will be maintained for discontinued policies with the following asset allocation and SFIN.

Fund Name	Investment Objective	Asset Allocation	Risk Profile
Discontinued Policy Fund (SFIN: ULIF01024/02/11DISCONFUND140)	To generate steady return at lower risk when the policyholder surrenders the policy or discontinues premium payment during the lock in period. The currently prevailing minimum guaranteed rate of interest applicable to discontinued fund is 4% percent per annum.	Government Securities: 60% to 100% Money Market/cash: 0% to 40%	Low

The minimum guaranteed rate of interest applicable to Discontinued Policy Fund will be specified by the IRDA of India from time to time. The current minimum guaranteed rate applicable to Discontinued Policy Fund is 4% per annum.

Systematic Transfer Plan

With STP, you can invest a specific amount in a regular fashion at monthly intervals. This gives you the advantage of rupee cost averaging. You buy more units when markets are down and fewer units when markets are up, thereby reducing the average cost of purchase of units in the funds selected by you.

You have an option to choose STP for 12 months only.

The option would be available to policies where premium is paid annually or single pay policies.

How STP Works

While applying for the policy, you choose the amount to be invested in a regular fashion in one or more of the ten funds mentioned above, and decide the proportion of money you would like to invest in each fund. If you are opting for more than one fund, the minimum investment in any fund should be at least 1% of the Single/Annualized premium paid.

In case of STP, the Single/Annualized premium (net of allocation charges) will be first allocated to Liquid fund every policy year till completion of premium payment term, and then at the beginning of each policy month (monthiversary), a portion will be systematically switched to the funds chosen by the policyholder at inception. Every month $1/N$ of units will be transferred from Liquid fund to other funds as per the fund allocation proportion chosen by the policyholder; where N = number of months remaining under the STP scheme.

For e.g.: A policyholder chooses the STP option with premium allocation of 20% in Debt Fund and 80% in Growth Fund. Then for the first month $1/12 * 20\%$ of units in Liquid fund will be switched to Debt Fund and $1/12 * 80\%$ of units in Liquid Fund will be switched to Growth Fund. This transfer will happen after the deduction of all the charges for that monthiversary. For second month $1/11 * 20\%$ of units in Liquid fund will be switched to Debt Fund and $1/11 * 80\%$ of units in Liquid Fund will be switched to Growth Fund and so on each policy year.

Life Stage Portfolio Strategy

Considering the ever changing financial needs as per the different life milestones, we offer a life stage based investment strategy wherein the investments

are distributed between Large Cap Equity Fund and Debt Fund with their proportions varying as per the different life stages. At inception the funds will be distributed between two funds, Large Cap Equity & Debt Fund. As and when the next milestone is achieved, the funds will be re-distributed according to the attained age (age bands) as given in following table.

Age last birthday last policy anniversary	Debt Fund	Large Cap Equity Fund
Up to 25	15%	85%
26 – 30	20%	80%
31 – 35	25%	75%
36 – 40	30%	70%
41 – 45	35%	65%
46 – 50	40%	60%
51 – 55	45%	55%
56 And Above	50%	50%

On a quarterly basis, the strategy shall be reviewed and rebalanced, if necessary, to achieve above proportions. The rebalancing will be done on the first day of each quarter of the financial year except for the last 12 months of the policy. If the first day is a non-valuation date then the next working day's NAV will be applicable.

In the last 12 months, the remaining investments from Large Cap Equity Fund will be systematically transferred to the liquid fund in 12 installments.

- Provisions shall include expenses for brokerage and transaction cost, NPA, Fund Management Charges (FMC) and any other charges approved by the IRDA.
- The unit price will be rounded to the nearest of ₹0.0001 and shall be published on the Company's website.

Force Majeure Condition

- As per Schedule I(2)(A)(v) of the IRDAI (Insurance Products) Regulations, 2024, the Company will declare a 'Single' Net Asset Value (NAV) for each segregated fund on a day-to-day basis.
- The Company specifies that, in the event of certain Force Majeure conditions, the declaration of NAV on a day-to-day basis may be deferred and could include other actions as a part of investment strategy (e.g. taking exposure of any Segregated Fund (SFIN) upto 100% in Money Market Instruments [as defined under Schedule III (Part I)(1)(8) of IRDAI (Actuarial, Finance & Investment functions of Insurers) Regulations 2024])

3. The Company shall value the Funds (SFIN) on each day for which the financial markets are open. However, the Company may value the SFIN less frequently in extreme circumstances external to the Company i.e. in force majeure events, where the value of the assets is too uncertain. In such circumstances, the Company may defer the valuation of assets for up to 30 days until the Company is certain that the valuation of SFIN can be resumed
4. The Company shall inform IRDAI of such deferment in the valuation of assets. During the continuance of the Force Majeure events, all requests for servicing the policy including policy related payment shall be kept in abeyance.
5. The Company shall continue to invest as per the fund mandates. However, the Company shall reserve its right to change the exposure of all or any part of the Fund to Money Market Instruments [as defined under Schedule III (Part I)(1)(8) of IRDAI (Actuarial, Finance & Investment functions of Insurers) Regulations 2024]] in circumstances mentioned under points 3 and 4 above. The exposure of the fund as per the fund mandates shall be reinstated within reasonable timelines once the Force Majeure situation ends
6. Few examples of circumstances as mentioned [in point 3 & 4 above] are:
 - a) When one or more stock exchanges which provide a basis for valuation of the assets of the fund are closed otherwise than for ordinary holidays.
 - b) When, as a result of political, economic, monetary or any circumstances which are not in the control of the Company, the disposal of the assets of the fund would be detrimental to the interests of the continuing Policyholders.
 - c) In the event of natural calamities, strikes, war, civil unrest, riots and bandhs.
 - d) In the event of any Force Majeure or disaster that affects the normal functioning of the Company.
7. In such an event, an intimation of such Force Majeure event shall be uploaded on the Company's website for information
