Liquid Fund will be available to the Policyholder only through STP or Life Stage Portfolio Strategy as per the rule defined below. Investment objective of Liquid Fund is as under:

Fund	Investment objectives	Asset Allocation	Risk Profile
Liquid Fund (only in case of STP) (SFIN: ULIF00920/01/11LIQUIDFUND140)	To generate steady return at lower risk by investing in a range of short-term debt/liquid money market securities	T-Bill/Money Market/Cash: 100%	Low

In addition to the above fund an additional fund will be maintained for discontinued policies with the following asset allocation and SFIN.

The minimum guaranteed rate of interest applicable to Discontinued Policy Fund will be specified by the IRDAI from time to time. The current minimum guaranteed rate applicable to Discontinued Policy Fund is 4% per annum.

● Systematic Transfer Plan (STP)

With STP, you can invest a specific amount at regular fashion at monthly intervals. This gives you the advantage of rupee cost averaging. You buy more units when markets are down and fewer units when markets are up, thereby reducing the average cost of purchase of units in the funds selected by you.

You have an option to choose STP for 12 months only. The option would be available to policies where premium is paid annually.

● How STP Works

While applying for the policy, you choose the amount to be invested regularly in one or more of the Six funds mentioned above, and decide the proportion of money you would like to invest in each fund. If you opt for more than one fund, the minimum investment in any fund should be at least 1% of the Annualized Premium paid.

In the case of STP, the Annualized premium (net of allocation charges) will be first allocated to Liquid Fund every policy year till completion of the premium payment term, and then at the beginning of each policy month (monthly policy anniversary), a portion will be systematically switched to the funds chosen by the policyholder at inception. Every month $1/N$ of units will be transferred from Liquid Fund to other funds as per the fund allocation proportion selected by the policyholder, where N = number of months remaining under the STP scheme. STP option is not applicable where the mode of premium payment is Non Annual.

For e.g.: a policyholder chooses the STP option with premium allocation of 20% in Debt Fund and 80% in Growth Momentum Fund. Then for the first month $1/12 * 20%$ of units in Liquid Fund will be switched to Debt Fund and $1/12 * 80%$ of units in Liquid Fund will be switched to Growth Momentum Fund. This transfer will processed after the deduction of all the charges for that monthly policy anniversary. For second month $1/11 * 20%$ of units in Liquid fund will be switched to Debt Fund and $1/11 * 80%$ of units in Liquid Fund will be switched to Growth Momentum Fund and this process will be repeated each policy year.

Life Stage Portfolio Strategy

Considering the ever changing financial needs as per the different life milestones, we offer a life stage based investment strategy wherein the investments are distributed between Large Cap Advantage Fund and Debt Fund with their proportions varying as per the different life stages. At inception the funds will be distributed between two funds, Large Cap Advantage Fund & Debt Fund. As and when the next milestone is achieved, the funds will be re-distributed according to the attained age (age bands) as given in following table:

Every quarter, the strategy shall be reviewed and rebalanced, if necessary, to achieve above proportions. The rebalancing will be done on the first day of each quarter of the financial year except for the last 12 months of the policy. If the first day is a non-valuation date then the next working day's NAV will be applicable.

Age as on Last Birthday Last Policy Anniversary	Debt Fund	Large Cap Advantage Fund
Up to 25	15%	85%
26 – 30	20%	80%
31 – 35	25%	75%
36 – 40	30%	70%
41 – 45	35%	65%
46 – 50	40%	60%
51 – 55	45%	55%
56 And Above	50%	50%

In the last 12 months, the remaining investments from Large Cap Advantage Fund will be systematically transferred to the liquid fund in 12 installments.
