## Systematic Transfer Plan (STP)

With STP, you can invest a specific amount at monthly intervals, this gives you the advantage of Rupee Cost Averaging. You can buy more units when markets are down and fewer units when markets are up, thereby reducing the average unit purchase cost.

You can choose STP only for 12 months. This option would be available to policies wherein the premium is to be paid annually.

### How STP Works

While applying for the policy, you choose the amount to be invested regularly in one or more of the six funds mentioned above, and decide the proportion of money you would like to invest in each fund. If you opt for more than one fund, the minimum investment in any fund should be at least 1% of the Annualised premium paid.

In the case of STP, the Annualized premium (net of allocation charges) will be first allocated to Liquid Pension Fund every policy year till completion of the premium payment term, and then at the beginning of each policy month (monthly policy anniversary), a portion will be systematically switched to the funds chosen by the policyholder at inception. Every month  $1/N$  of units will be transferred from the Liquid Pension Fund to other funds as per the fund allocation proportion selected by the policyholder, where  $N$  = number of months remaining under the STP scheme. STP option is not applicable where the mode of premium payment is Non Annual.

For example: A policyholder chooses the STP option with premium allocation of 20% in the Pension Debt Fund and 80% in the Pramerica Pinnacle Growth Pension Fund. Then for the first month  $1/12 * 20\%$  of units in Liquid Pension Fund will be switched to Pension Debt Fund and  $1/12 * 80\%$  of units in Liquid Pension Fund will be switched to Pramerica Pinnacle Growth Pension Fund. This transfer will be processed after the deduction of all the charges for that monthly policy anniversary. For second month  $1/11 * 20\%$  of units in Liquid Pension fund will be switched to Pension Debt Fund and  $1/11 * 80\%$  of units in Liquid Pension Fund will be switched to Pramerica Pinnacle Growth Pension Fund and this process will be repeated each policy year.

## Life Stage Portfolio Strategy

Considering the ever-changing financial needs as per the different life milestones, we offer a life stage based investment strategy wherein the investments are distributed between Pension Dynamic Equity Fund and Pension Debt Fund with their proportions varying as per the different life stages. At inception the funds will be distributed between two funds, Pension Dynamic Equity Fund & Pension Debt Fund. As and when the next milestone is achieved, the funds will be re-distributed according to the attained age (age bands) as given in the following table:

Age as on last birthday and last policy anniversary	Pension Debt Fund	Pension Dynamic Equity Fund
Up to 25	15%	85%
26 – 30	20%	80%
31 – 35	25%	75%
36 – 40	30%	70%
41 – 45	40%	60%
46 – 50	50%	50%
51 – 55	60%	40%
56 and above	70%	30%

Every quarter, the strategy shall be reviewed and rebalanced, if necessary, to achieve above proportions. The rebalancing will be done on the first day of each quarter of the financial year except for the last 12 months of the policy. If the first day is a non-valuation date then the next working day's NAV will be applicable.

In the last 12 months, the remaining investments from the Pension Dynamic Equity Fund will be systematically transferred to the Liquid Pension Fund in 12 instalments.

2. The Company specifies that, in the event of certain Force Majeure conditions, the declaration of NAV on a day-to-day basis may be deferred and could include other actions as a part of investment strategy (e.g. taking exposure of any Segregated Fund (SFIN) upto 100% in Money Market Instruments [as defined under Schedule III (Part I)(1)(8) of IRDAI (Actuarial, Finance & Investment functions of Insurers) Regulations 2024]

3. The Company shall value the Funds (SFIN) on each day for which the financial markets are open. 4. The Company shall inform IRDAI of such deferment in the valuation of assets. During the continuance of the Force Majeure events, all requests for servicing the policy including policy related payment shall be kept in abeyance.
5. The Company shall continue to invest as per the fund mandates. However, the Company shall reserve its right to change the exposure of all or any part of the Fund to Money Market Instruments [as defined under Schedule III (Part I)(1)(8) of IRDAI (Actuarial, Finance & Investment functions of Insurers) Regulations 2024] in circumstances mentioned under points 3 and 4 above. The exposure of the fund as per the fund mandates shall be reinstated within reasonable timelines once the Force Majeure situation ends
6. Few examples of circumstances as mentioned [in point 3 & 4 above] are:
  - a) When one or more stock exchanges which provide a basis for valuation of the assets of the fund are closed otherwise than for ordinary holidays.
  - b) When, as a result of political, economic, monetary or any circumstances which are not in the control of the Company, the disposal of the assets of the fund would be detrimental to the interests of the continuing Policyholders.
  - c) In the event of natural calamities, strikes, war, civil unrest, riots and bandhs.
  - d) In the event of any Force Majeure or disaster that affects the normal functioning of the Company.
7. In such an event, an intimation of such Force Majeure event shall be uploaded on the Company's website for information.
