As an employer, you want to provide the best opportunity to your employees while ensuring the interest of your Company. It is important to strike a balance between these twin objectives without compromising on either.

Presenting “Pramerica Life New Group Traditional Employee Benefit Plan” which is a **Non-Linked Non-Participating Group Savings Life Insurance Plan** product offered to employer-employee groups to provide financial security to employees and helps you provide solutions for a better work place as well as helps in being one of the key differentiators while attracting talent. As an employer, you can use this plan for provisioning of employee benefits i.e. funding gratuity, leave encashment and post-retirement medical benefits.

This plan can be offered to employer-employee groups under Defined Benefit Schemes only.

Key Benefits of the Plan

- Composite solution to cater to the requirements of Gratuity, Leave Encashment and Post-Retirement Medical Benefits etc. payable to the employees as per scheme rules
- Attractive Interest Rates declared at start of every financial quarter
- Professionally managed fund with high service levels

How does the plan work?

- The Company will maintain a pooled fund at Master Policy level. The pooled fund maintained for every scheme is referred to as Scheme Account. The Scheme Account Value will be calculated by crediting all contributions received & interest credited less all applicable charges and withdrawals, as per scheme rules.
- Scheme Benefit: As per the scheme rules, the benefit on various events (like resignation, death, retirement, disability, termination or sickness) will be paid from the respective Scheme Account as per scheme rules

- Insurance Benefit: The flat life cover of ₹10,000 will be provided to each member under the scheme on yearly renewable basis. If the Master Policyholder wants higher risk cover, the same may be arranged through a separate one year renewable Group Scheme of the Company open for sale from time to time
- Contribution: In case the Scheme Account Value is overfunded, the Company may allow “nil contribution” under the schemes until further contribution is required. In all such cases of nil contribution, the scheme shall not be treated as discontinued. No top ups are allowed unless required to address the underfunding of the schemes as per extant accounting standards.
- Interest Credits: The Interest rate shall be declared at the start of every financial quarter and applied at the end of every quarter. Contributions net of withdrawal would be given proportional interest.

Market Value Adjustments (MVA)

The Market Value Adjustment (MVA) may be applied to adjust the amount payable on bulk exits. MVA is related to the decrease in the value of the assets held by the company at the time of exit. This decrease in value can be passed on to the Master Policyholder.

MVA shall be applicable if the amount to be paid on total exits during the policy year exceeds 25% (bulk exits*) of Scheme Account Value as at the beginning of the policy year. Such transactions shall be treated as bulk exits, where exits shall be as per scheme rules.

*Bulk Exits: If the amount to be paid on total exits in any event exceeds 25% of the Scheme Account Value at the beginning of the policy year, such transactions shall be treated as bulk exits, where exit shall be as per the scheme rules.

Market Value Adjustment (MVA) shall be applied only to the amount which is over & above the amount representing bulk exit.

Applicability of MVA shall be as below:

- At the time of each exit, we shall calculate total exits (including current exit request) during the policy year
- If the sum of total exits during the policy year is less than 25% of Scheme Account Value at the beginning of policy year, no MVA shall be applied.
- During any exit, if the total exits where exit shall be as per the scheme rules during the policy year become greater than 25% of Scheme Account Value at the beginning of policy year, MVA shall be applied on exit amount above 25% of Scheme Account Value at the beginning of policy year.
- Once the MVA has been triggered during the policy year, all future exits till the end of policy year shall be subject to MVA.

At the end of each policy year, total exits shall be reset and above mentioned steps will be repeated.

Methodology and procedure:-

1. The Market Value (MV) of entire assets in respect of this product will be determined after the exit intimation by the

Policyholder.

2. The Scheme Account Value (AV) of each Policyholder will be summed across all Policyholders after exit intimation by Policyholder.
3. The ratio of MV to AV shall be determined.
4. If this ratio is less than 1, the MVA Factor shall be calculated as below:

$$\text{MV Loss \%} = [1 - (\text{MV}/\text{AV})]$$

$$\text{MVA Factor} = (\text{MV Loss \%}) / (\text{MV}/\text{AV})$$

5. If the ratio is greater than 1, the MVA Factor will be set to 1.

Surrender

The Master Policy will acquire a surrender value immediately. The Master policyholder may surrender the complete Master Policy at any time after serving minimum notice period of 7 working days.

In such case, the surrender benefit shall be equal to the Scheme Account Value. The surrender value so calculated shall be after crediting interest rates on pro-rata basis but may also be subject to Market Value Adjustment (MVA).

Renewal

The Group Policy for Employee Benefit Schemes shall be renewed on a yearly basis under the policy by adjusting the Mortality fees either by way of deduction from the Scheme Account Value or paying Annual Mortality Premium (along with applicable taxes) separately into the Scheme Account.

General Policy Provisions

- **Scheme Rules:** Scheme rules are the set of rules governing the benefit structure, eligibility of membership & other terms of the scheme. The scheme rules will provide the details of benefits such as type and size of benefits, how and when benefits are payable. The scheme rules would be submitted along with the Proposal Form
- **Non-Forfeiture:** If at any point of time, the Scheme Account Value is not sufficient to deduct the mortality premium, the company will ask the Master Policyholder to make the contributions within one month. However, if the contribution is not received within the stipulated period, the Policy will automatically terminate on payment of Surrender Benefit.
- **Termination of insurance cover** – Life cover in respect of any member will terminate on the earliest of the following:
 - The date of cessation of employment
 - The date on which the member attains the maximum maturity age as per scheme rules
 - The date of death of the member
 - The date the master policy is surrendered
 - Upon cancellation of the Policy under the free look option
- **Loans:** No loans are available under the scheme
- **Suicide Clause:** No suicide exclusion is applicable

- **Grace Period:** For payment of life cover premium, grace period of 30 days from due date will be allowed. If the life cover premium is not received by the end of Grace Period, then the applicable Mortality Fee (including applicable tax) under the Master Policy shall be deducted from the Scheme Account Value and the Death Benefit shall continue for all Insured Members.
- **Free Look Cancellation:** In case the Master policyholder does not agree with the terms and conditions of the Master Policy, then the Master policyholder may approach the Company with a written request for free-look cancellation stating the reasons for objection within 30 days from the receipt of the Master Policy. The Company will refund the Contribution paid by the Master policyholder after deducting the proportionate risk premium, any expenses incurred by the company towards medical examination of the member and the stamp duty charges (if any).
- **Tax Benefits and GST:** Tax Benefits under the policy will be as per the prevailing Tax laws and are subject to amendments from time to time. For tax related queries, contact your independent tax advisor.
